Climate & Urban Health Advocate | Citizen Science Practitioner | Community Engagement Facilitator

Professional Summary

Environmental and climate advocate with experience advancing urban health, citizen science, and youth-led climate action in Nigeria. Skilled in community engagement, coalition building, and participatory processes that connect environmental data with lived experiences. Has coordinated clean-air monitoring initiatives, youth climate fellowships, and sustainable mobility advocacy while collaborating with researchers, government agencies, and community networks. Passionate about empowering communities and young people to co-create solutions that lead to healthier and more sustainable cities.

Core Competencies

- Citizen Science & Air Quality Monitoring
- Urban Health & Climate Advocacy
- Community Engagement & Mobilization
- Stakeholder & Government Relations
- Workshop Facilitation & Public Dialogue
- Youth Capacity Building
- Project Coordination & Program Design
- Coalition & Network Building
- Environmental Storytelling & Digital Advocacy

Professional Experience

Project Lead | Clean Air 360 (2025 – Present)

Lead the design and implementation of clean-air and climate education initiatives engaging schools, youth networks, and communities in environmental awareness and advocacy.

- Initiated the WaveWise Climate Resilience Project supporting climate awareness and environmental action in school communities.
- Built collaborations with Lagos State Environmental Protection Agency, SUBEB, Lagos Ministry of Environment and Water Resources, Lagos Resilience Office, LAWMA, and UrbanBetter Lagos Cityzen Hub.
- Coordinate volunteers, manage project implementation, and ensure transparent reporting and accountability.

Run Leader | UrbanBetter – Cityzens for Clean Air (2024 – 2025)

Facilitated citizen-led air-quality monitoring runs and community awareness activities connecting environmental data with urban policy conversations.

- Trained youth and community participants on air-quality monitoring using AirBeam3 sensors and the Cityzens App.
- Organized and facilitated over 10 clean-air city runs linking transport, health, and environmental awareness.
- Winner of HEDA Resources 1M Grant Pitch (2025) for the Afeferere Project, a youth-led clean-air advocacy initiative.

Team Lead, Active Transport | CCC Action Lab – YLabs Global

Led initiatives promoting sustainable mobility and healthier urban environments through advocacy and stakeholder engagement.

- Coordinated community campaigns encouraging non-motorized transport.
- Delivered presentations to government and NGO stakeholders on the links between transport systems and air pollution.

Social Media Manager | Colors of Change Africa

Managed digital storytelling strategies amplifying youth voices and environmental advocacy campaigns across social platforms.

Projects & Initiatives

#WaveWise Climate Resilience Project – Itowolo

A youth-focused climate initiative developed from citizen-led air quality monitoring that addressed flooding risks affecting a local school community. The project mobilized students, youth advocates, and stakeholders to engage in climate education, environmental awareness, and dialogue on local resilience solutions.

Citizens for Clean Air – UrbanBetter

Participated in citizen science initiatives measuring air quality and raising awareness about the health impacts of urban air pollution through community runs, storytelling, and stakeholder dialogue.

Afeferere Clean Air Project

Youth-led clean air awareness initiative inspired by citizen science. Selected as the winner of the HEDA Resources Center 1 Million Naira Grant Pitch Competition in 2025.

Representation & Speaking Engagements

- COP29 Youth Delegate – Azerbaijan (2024)
- Clean Air Forum – Nairobi, Kenya (2025)
- Car Free Day Lagos (2024–2025)
- International Climate Change Summit – Lagos (2025)
- Interchange University Summit (2025)
